

1) Tic Tac Toe

Tic Tac Toe Implementation.

S1: Start

S2: Create 3x3 grid

S3: Human plays as X and AI plays O

S4: While game is not completed.

S5: Human selects empty cell

S6: AI selects empty cell

S7: Check 3 symbols same in same

row, same column and diagonal.

57: If either of the players successfully selects and fills their symbol in same diagonal, column or row, they win.

X → A

O → H

X = ?

O = ?

e.p.s.

Enter initial state (use x, o and -) :

o - x x - - x o o

Initial states :

o	-	x
x	-	-
x	o	o

Now turn (x) :

Enter cell number (1-9) : 6

After your move :

o	-	x
x	o	x
x	o	o

AI is thinking

o	-	x
x	o	x
x	o	o

AI wins

Player lost : o

~~21-1~~
~~20/9~~
